

Healthcare

Introduction of the Sector

Health Care comprising of hospitals, medical devices, clinical trials, outsourcing, telemedicine, medical tourism, health insurance and medical equipment has become one of India's largest sectors – both in terms of revenue and employment. With increased awareness about health, domestic healthcare, medical tourism and health insurance markets are gaining momentum, offering opportunities for trained personnel.

B. Voc. in Patient Care Management

Course Introduction

A graduate of B. Voc. in Patient Care Management is an all-rounder as far as critical care is concerned. The course envisages to build in an overall expertise in the student, of managing patients with care, whether it's an in-patient or someone in the OPD. Apart from general patient care the student will specialize in geriatric care and palliative care. They would be capable of offering a range of services like cardiac care or care of cancer patients. The focus of the course will be on geriatric care and palliative care. Data from National Family Health Survey (NFHS) and census shows that life-span has increased in general. Hence, provisions for care and support for older population need to have more thrust in the development initiatives.

This includes integrating health care components required for older population and developing multi-level interdisciplinary professionals to provide quality care and support to them. In addition to geriatric care, palliative care also is a need of the time. It has been estimated that in India, the total number of people who need palliative care is likely to be 5.4 million people a year. Palliative care is explicitly recognized under the human right to health. The goal of palliative care is to improve quality of life. It is required for a wide range of diseases like cardiovascular diseases, cancer, chronic respiratory diseases, AIDS, diabetes and so on. Palliative care treats a wide range of issues that can include pain, depression, anxiety, fatigue, shortness of breath, constipation, nausea, loss of appetite and difficulty sleeping.

The need for such professionals has been expressed not only by the health care sector employers, but also by the patients. This course will enable students to deliver quality care in all three areas i.e. patient care, geriatric care and palliative care. Students may get job opportunities as nursing assistants in private hospitals, in the home care setting as well as in various developed countries where the life span has increased.

The course thus, aims to fill the gap between the demand for these professionals and dearth of their availability. That apart, the course creates the grounds for enhancing vertical growth opportunities for the Patient Care Management graduate.

The complexity of skill development increases with each level, in correspondence with the standards set by the National Skill Qualification Framework. Thus, each activity would be having an increasing number of tasks every progressive year.

Eligibility for Admission

The eligibility for admission to B. Voc. in Patient Care Management course with specialization in Palliative Care and Geriatric care shall be 10+2 or equivalent, in science

stream.

Career Prospects

After completing B. Voc. in Patient Care Management course with specialization in Palliative Care and Geriatric care the student will be able to find jobs in establishments such as – Hospitals, Clinics, Rehabilitation Centers and Nursing Homes.

Semester-wise Listing of Courses

Semester	Subject Code	Subject Name	Credits
I	GE 1.1	Functional English	4
	GE 1.2	Communication Skills - I	4
	GE 1.3	Computing Skills - I	4
	PCM 1	Personal Care I and Store Keeping I	2
	PCM 2	Basic Nursing Procedures	2
	PCM 3	Patient Care Record I and Cardiac Care I	2
	PCMP 1	Vocational Practical	12
II	GE 2.1	Basics of Economics and Markets	4
	GE 2.2	Environment Sciences	4
	GE 2.3	Ethics and Governance	4
	PCM 4	Patient Ambulation I	2
	PCM 5	Waste Management I and Evacuation Sampling I	2
	PCM 6	Wound Care I	2
	PCMP 2	Vocational Practical	12
III	GE 3.1	Communication Skills II	4
	GE 3.2	Financial Literacy	4
	GE 3.3	Basics of Legal and HR Policies	4
	PCM 7	Personal Care II and Store Keeping II	2
	PCM 8	Advanced Nursing Procedures I	2
