EdTech Weekly: Voices from the ground |

TALC 2020 Webinar 6

English on the Foundations of Education (IFOE)

As the lockdown continues, we continue to create and curate resources and collaborate with others to help make the transition to technology enabled learning in the distance mode more accessible and meaningful for teachers and students.

We invite you to take our survey. Please enrol please click on the image.

Indians are our field action initiatives using technology for government school students and are our Youtube Channel.

Dr. Ruchi Kumar writes about the first webinar on 'How can technology address learning challenges during the pandemic?' organised by the Centre for Education Innovation and Action Research (CEIAR) in association with the Department of Education (GOVT) Chhattisgarh, where she talks about teaching-learning challenges during the pandemic and how resilient the human spirit can be in the face of COVID-19. She reflects on the implications of the pandemic and the role of technology and the role of design thinking in the use of technology in schools and universities.

Omkar Balli conducted a webinar on Technology in Education in 2018 and the Open Education Consortium Award in 2019 for Excellence in collaboration of OER development.

The 2nd TISS-DSERT Webinar on 'Assessment of ground preparedness for Edtech' with the title: Report of Round 2 of dip-stick study was conducted. Find links here.

The 3rd TISS-DSERT Webinar on ‘Allowing change with technology’ was conducted on May 22, 2020.

As part of a webinar series planned by SCERT Telangana on May 15, 2020, the webinar held on may 12, attended by 126 teacher education leading to your curricula and are to these resources from the new OERs circular on the NCTE website.

...and how resilient the human spirit can be in the face of COVID-19. She reflects on the implications of the pandemic and the role of technology and the role of design thinking in the use of technology in schools and universities.

...the story of Gijubhai's classic 'Divaswapna' with various applications like, pictochart, powerpoint presentation, scratch, m-block, arduino-uno, spreadsheets and google sheets to create a graph for the same. Students presented a dipstick survey on Assessment of ground preparedness for Edtech with the face of a crisis. Read about it here.
