Keeping you CONNECTED to Learning during COVID19

OUR RESPONSE TO COVID-19

The Connected Learning Initiative (CLIx) is the Technology for Connected Learning and Educational Development Unit of Centre for Education Innovation and Action Research (CEIAR) at Tata Institute of Social Sciences, Mumbai. CLIx has been supporting teachers and students to digitise their learning process through the use of technology by developing resources and conducting workshops around the topic of digital education. Support to teachers at various levels has been provided through expert interventions, pedagogical support and training on how to use technology for their teaching. CLIx has also dedicated time to train educational leave-taking staff on the use of technology for their work-from-home scenario.

STUDENTS AND FACULTY OF TISS MW & MW

CLIx awarded the UNESCO-King Hamad Prize for Excellence in the Use of ICTs in Education in 2018 and the Open Education Consortium Award in 2019 for excellence in collaboration of OER development. CLIx was awarded the UNESCO-King Hamad Prize for Excellence in the Use of ICTs in Education in 2018 and the Open Education Consortium Award in 2019 for excellence in collaboration of OER development. Connected Learning Initiative (CLIx) award winning resources created in collaboration with MIT, Boston are available online and for download for teachers and students these groups will provide insights into the ground level of India's education transition to other modes of teaching and learning. The Connected Learning Initiative (CLIx) has been successful in helping teachers in understanding and embracing digital teaching learning models by creating a series of multimedia resources for K-12 education, overcoming the language barrier by offering resources in Hindi and English. Continue your professional development in Teacher Education through CLIx resources.

Online Learning resources can also be found on the Connected Learning Initiative (CLIx) website.

ONLINE COURSE FOR TEACHERS AND EDUCATORS

Robotics for Schools, Teachers and Educators at TISS

The first Webinar under the COOL (Connected Learning Online) initiative was launched on April 7, 2020, with Prof. Padma Sarangapani sharing her thoughts on staying connected with students in virtual classrooms during the lockdown. Read her insights.

As India faces a disruptive moment in education, teachers and students have the challenge of continuing to teach and learn during the lockdown. Technology can be an enabler in this moment of crisis. We, at the Centre for Education Innovation and Action Research (CEIAR) is committed to offer our expertise and services to help different stakeholders in making the transition to online and remote learning. Task Based Language Teaching was attended by 243 participants. This was followed by a webinar on June 16, 2020, attended by 300+ participants.

Keep up-to-date with CLIx's forthcoming events.

HIGHLIGHTS

The first Webinar under the COOL (Connected Learning Online) is our response to COVID-19 through which we hope to bring to you a wide range of resources to help you continue teaching using technology. Teachers and school leaders who need to make a transition to online and remote learning will be introduced to synchronous and asynchronous technologies, mental health and more. Attend interactive sessions for teachers and students on various OERs, hands-on learning, synchronous and asynchronous technologies, mental health and more.
